 [/nitish Durga](#)

SKILLS

- ❖ HTML, CSS, JavaScript
- ❖ React.js, Express.js, Django
- ❖ Tailwind CSS, Bootstrap5
- ❖ Git, GitHub

PROJECTS

- ❖ **Echo Realm** (Sample Login: username:kevin password:1234) [Live](#) | [source-code](#)

Developed a full-stack social web application leveraging **React, Redux, Node.js, and MongoDB**, enabling real-time messaging, community discussions, and user interactions.

Implemented real-time features using **Socket.io**, including instant notifications for messages and friend requests.

Designed a modular and scalable architecture, incorporating feature-based folder structure and leveraging tools like **Vite.js** for optimized frontend performance and **Express.js** for robust backend services.

Built and deployed the application with **Vercel**, integrating advanced features like anonymous mode, privacy controls, and user profile analytics for an enhanced user experience.

EDUCATION

- ❖ BTech-CSE | GMRIT

CGPA: 8.39 | (4th semester)

SUMMARY

- Aspiring Web-developer working on JavaScript. Worked in React.js, Express.js, Node.js, Tailwind CSS, Bootstrap. Ready to learn new technologies and can adapt to new technologies.
